Responsive Technology Partners' Michael Stone Recognized by Snooze A.M. Eatery at 2023 Annual SWAF Event

Tampa FL, July 3, 2023 —For the second consecutive year, Responsive Technology Partners' Tampa FL team (formerly Securis Systems) was recognized by Snooze A.M. Eatery during its annual Study With A Fork/ SWAF event.

(L-R: Ed Mitzel, SVP IT/Snooze A.M. Eatery; Austin Coyman, Field Engineer/Responsive Technology Partners; Michael Stone, VP of Hospitality Division, Responsive Technology Partners; Bill Long, CFO & President, Snooze A.M. Eatery)

This year's SWAF event, held in Las Vegas NV, was a vendor-funded week of team building activities, including daily keynote speakers providing education and encouragement; empathy and integrity building discussions; and sharing of local community service projects such as food drives, charity fundraisers, and team fellowship events. For a second year, Responsive Technology Partners sponsored Snooze A.M. Eatery in support of Study With A Fork, as a Thank You for their customer loyalty.

Each year during SWAF, Snooze vendors are recognized for their contributions in five separate categories, such as Best New Vendor, Best Contributing Vendor, etc. This year in addition to 2022's "Snooziest New Vendor of the Year" recognition, Responsive received 2023's "Snooziest Vendor Rep of the Year- Michael Stone". "It's an honor to work with a company who treats us as part of their team, rather than a vendor," says Michael Stone, Responsive's VP of Hospitality Division. "We manage their entire IT stack, oversee their internal IT team, and provide the interface between the company and IT vendors to ensure their jobs are being done properly and on budget. We also share having a common company culture and values with both our customers and our team members. This is an excellent honor and we thank Snooze for the recognition."

Responsive Technology Partners, a joint venture between Pineland Telephone Cooperative, Inc. and Wilkes Communications, announced December 1 2022, the acquisition of Securis Systems located in Tampa, Florida. Founded over 10 years ago by Mr. Jeremy Axe as a ground-up technology operation providing IT support to the food service industry, Securis Systems has gained an outstanding reputation while sharing a similar mission and core values as Responsive Technology Partners.
